INTERNATIONAL PAPER
HAMMERMILL.
Paper for Life.™

Rainy Day Emergency Kit

Mobile

Mobiles are fun and can be fairly easy to create. They can be anything you like: the galaxy, springtime flowers, and even a world under the sea.

What You Will Need

Hammermill® Colors or Color Copy Digital
String
Scissors
Glue
Sticks, Dowel Rod, or Hanger

How to Make a Mobile

Step 1
Pick a theme for your mobile. Next design, draw, print, color in and cut out your shapes from your paper.

Step 2
Attach your shapes to the end of a string using glue or by creating a small hole to tie a piece of string through.

Step 3
Tie the shapes to the end of a stick, hanger, or small dowel rod so that they hang down from the stick. It is fun to hang the shapes at different heights.

Step 4
The trick is to balance the weight of the pieces and their position on the stick so that everything hangs freely.

Below are shapes that allow you to create an underwater seascape.
