## How To Make a Hanging Lantern

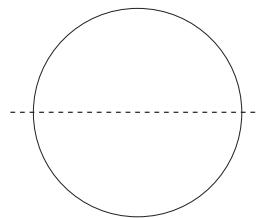

- 1** On both sheets, trace circle around a lid. The larger the circle, the larger the lantern.

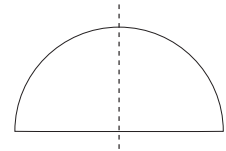

- 2** Cut out each circle.

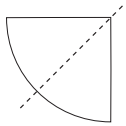

- 3** Fold circle in half.

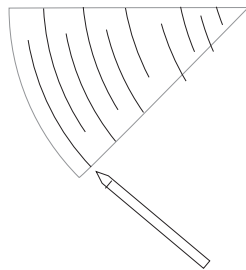

- 4** Fold circle in half again.

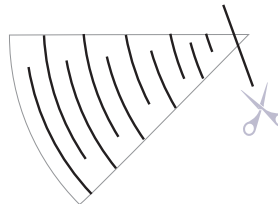

- 5** Fold circle in half one more time.

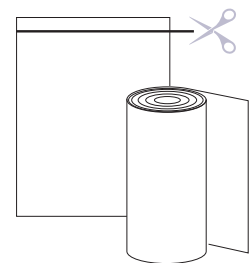

- 6** Using pencil, draw lines as shown below.

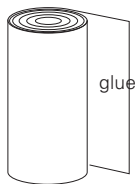

- 7** Cut off the very tip of the circle, and cut along the lines drawn. Next, open carefully.

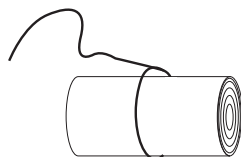

- 8** Take a small strip of paper and roll it.

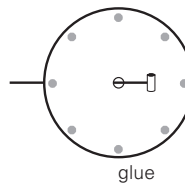

- 9** Seal the end with some glue.

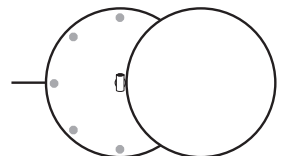

- 10** Tie a thread in the middle.

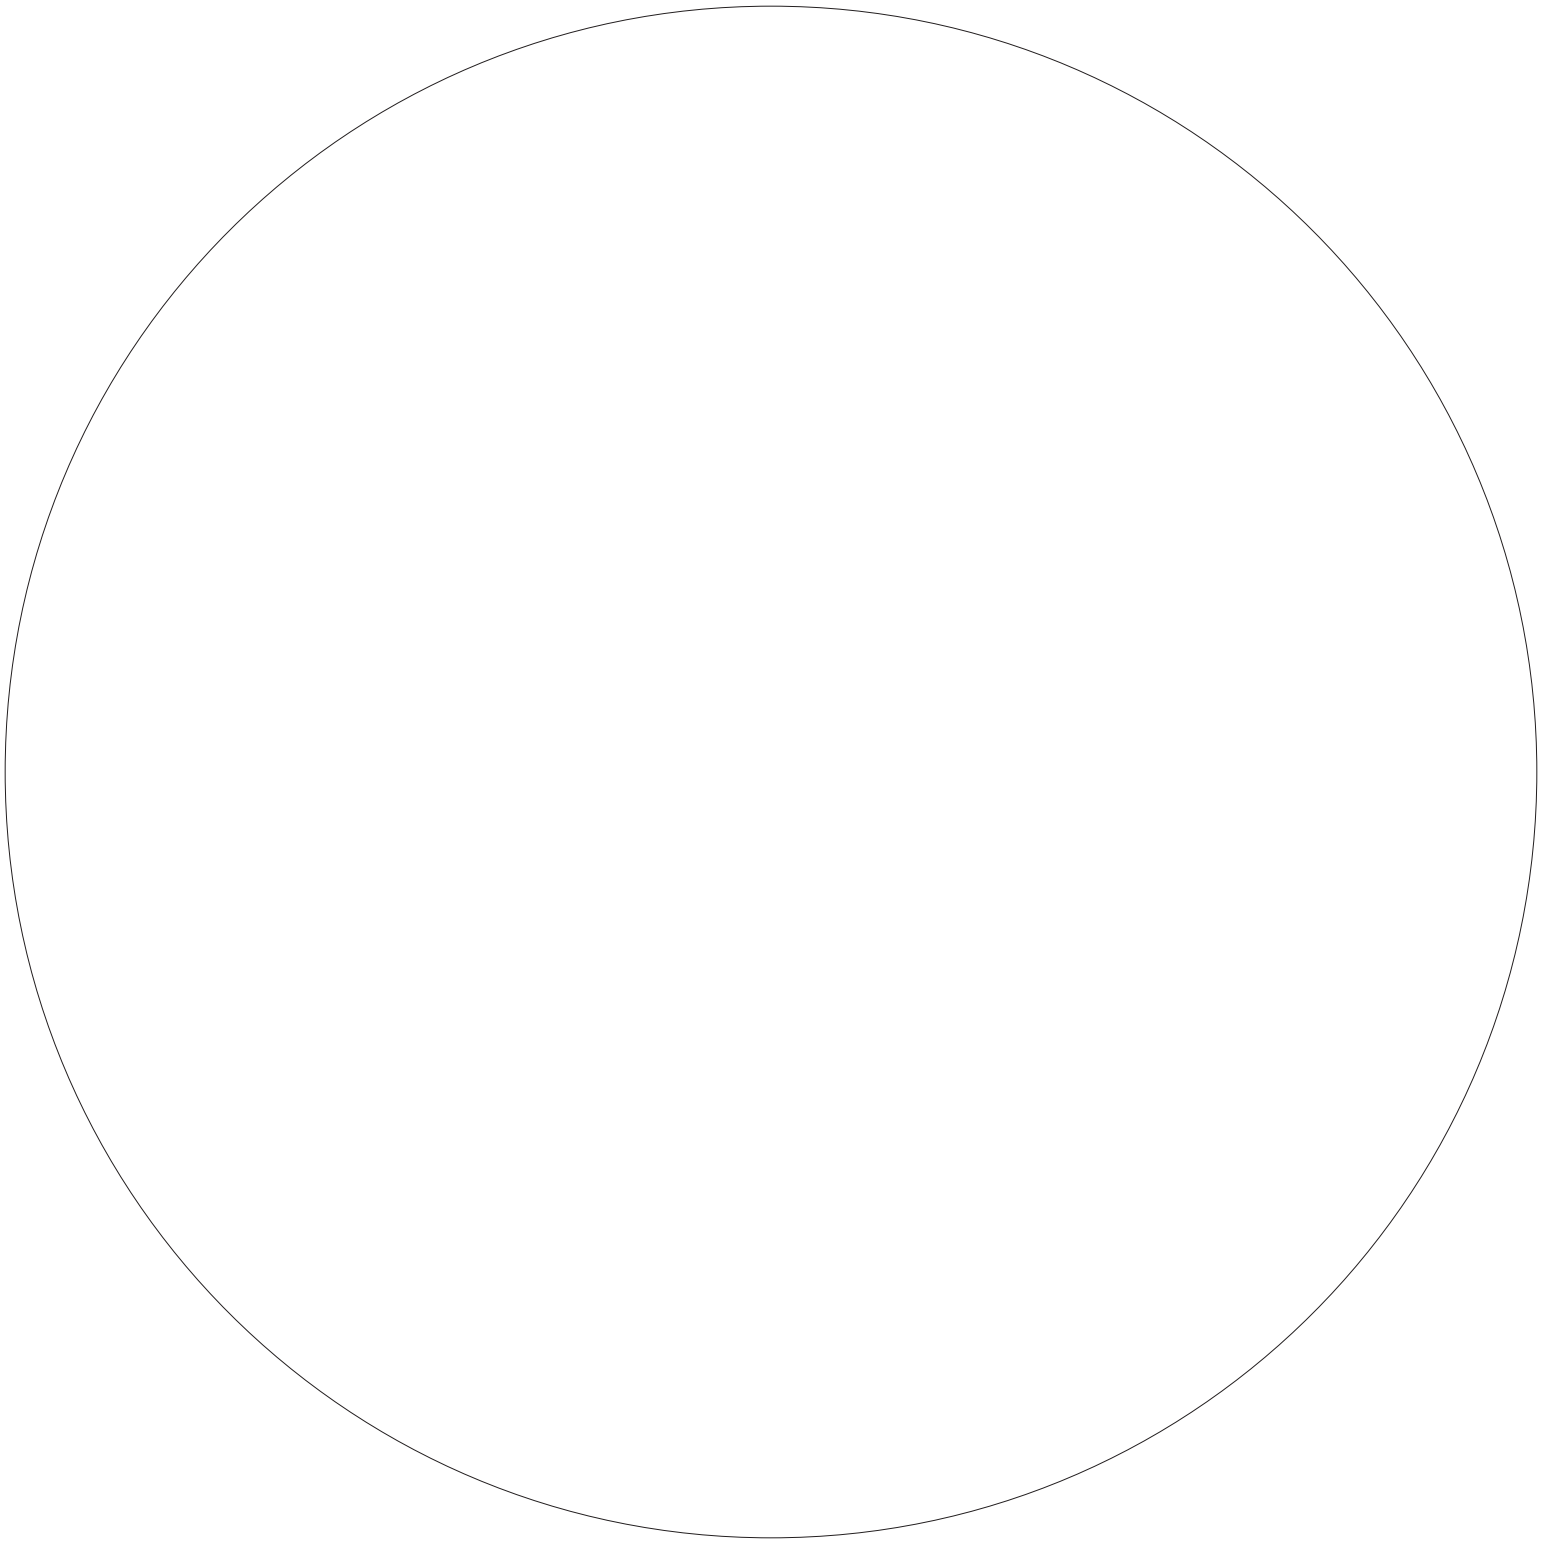

- 11** Pass the string through the center of the circle. Next place eight small dots of glue around the outermost circle.

- 12** Place second circle on top of the bottom circle with glue to attach the two circles. Then stretch to create lantern.

## How To Make a Loop Flower

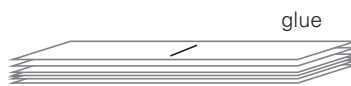

- 1 Start with an 8.5" x 11" sheet of paper.

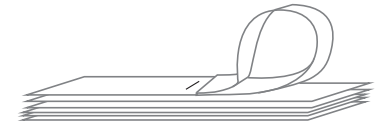

- 2 Cut the paper into eight equal strips.

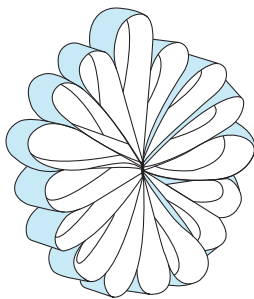

- 3 Gather the strips into a pile and staple the strips together. Make sure the staple runs perpendicular to the strips.

- 4 Use a gluestick or place 1-3 drops of glue at the end of the strip of paper.

- 5 Loop the paper inward towards the staple and place glued area near the staple. Continuing looping the strips one underneath the other until both sides are fully looped.

- 6 Here is the end result. Have fun and make as many as you want. Try different color papers and printed patterns for more excitement in the classroom.
